<sup>1</sup> Note, this matrix represents a summary of student discipline procedures under WSSDA policy 3241P.

<sup>2</sup> "Behavioral violation" refers to a student's behavior that violates *Pullman District's* discipline policy. In accordance with WAC 392-400-110(1)(a), *Pullman District's* policies and procedures must clearly state the types of behaviors for which discipline—including classroom exclusion, suspension, and expulsion—may be administered. Note: The information and definitions for behavioral violations in this matrix that indicate long-term suspension or expulsion may be an option correspond with provisions under RCW 28A.600.015(6) as well as grade-level conditions and limitations under WAC 392-400-440(4) and WAC 392-400-445(4) regarding the types of behavioral violations for which a district may consider administering long-term suspension or expulsion. The information and definitions for behavioral violations in this matrix that indicate long-term suspension or expulsion is not an option are consistent with provisions under RCW 28A.600.015(6) as well as conditions and limitations under chapter 392-400 WAC and also include recommendations for when a district's discipline policies and procedures may permit or prohibit the use of classroom exclusion, in-school suspension, or short-term suspension. While the information in this matrix is consistent with federal and state laws, districts must ensure the district's discipline policies and procedures, including clearly defined behavioral violations, are developed with the participation of school personnel, students, parents, families, and the community consistent with WSSDA policy 3241 and WAC 392-400-110(2). State laws establish the *minimum* substantive and procedural due process requirements for student discipline in schools, but districts may adopt policies and procedures setting forth conditions and limitations that provide additional substantive and procedural protections for students.

<sup>3</sup> Note, while this matrix organizes behavioral violations into severity levels that correlate with categories of potential responses intended to match the severity of behavior types, districts may also decide to organize behavioral violations so as to clearly delineate between minor versus major or classroom-managed versus office-managed behavioral violations. Within this matrix the *Type One* category provides examples of low-level behavioral violations that should be managed at the classroom level without resulting in the use of any exclusionary discipline practices and the *Type Two* category provides examples of some behavioral violations that may be office-managed without resulting in the use of suspension or expulsion. Regardless of how a district categorically labels behavioral violations under the *Type Two* through *Type Five* categories in this matrix, in accordance with WAC 392-400-430(2) the school district must consider the nature and circumstances of the behavioral violation when determining whether suspension or expulsion, and the length of the exclusion, is warranted.

<sup>4</sup> "Best practices" refers to *best practices and strategies* the district identified that school personnel should administer before or instead of administering classroom exclusion, suspension, or expulsion to support students in meeting behavioral expectations in accordance with WAC 392-400-110(1)(e). Refer to "3241P Attachment B: Example District Continuum of Discipline Responses" for an example

of how best practices and strategies may be embedded in discipline procedures across severity levels of behavioral violations at the classroom and administrative levels in a manner that corresponds with this matrix.

<sup>5</sup> Note, the information under this column represents a limited list of school referrals or protocols that may be required under corresponding district policies and is not to be interpreted as comprehensive. Districts should adapt the information as necessary in accordance with federal and state laws.
